"Lord Of The Final Sin"

The night is fall, the moon is back, the ravens in the sky
I feel my heart hunger for a rest of life
The time I see, the end is near, I'm waiting for the sign
The paradise, our mother earth we left behind

[bridge]

From a kingdom up the clouds the rays of the sun shine
on earth
And we feel stronger to fight again in the fields of the
master of chaos
By the power of nature, from the deepest path in the
wild forest
A new empire will arise with the majesty and glory of all
times

[chorus]

Memories of sorrow, I want to forget
Slowly the sunrise will take me away
To the Lord of the final sin
The lord of the final sin, to help me rest

I hear the storm running wild, waiting to arise
To take revenge from all those twisted minds
My destiny I found it here standing on the fight
Between the side of darkness and the side of light

[bridge]

The empire finally grows, fighting against the evil
forces
And the way to wisdom is now closer to be part of all of
us
There is nothing to shame now because the nature is
save from the mankind at all
We left behind the pain inside our minds and now we
are free once again

[chorus]

[solo 1(Elbelman)]

[solo 2(Atxondo)]

[chorus]

Close your eyes, ride up on wisdom and open wide the
gates of your heart

Dream the dream of a glorious freedom, I promise you
that isn't so far away

Isn't so far away, that's the way.
