Under the sun they control our wishes guiding our lives  
to the end

Walking away, down the streets I'm feeling  
The power of life all around my growing world

[bridge]

And I want to live my life ok, I want to stay out of  
worries

[chorus]

And all I want it's just to carry on, spread my wings and  
fly again

Sometimes I feel it's nothing I can win but it's time to  
break the ice

I'm a winter son

Take me away, I wanna be the sinner to follow the light  
of my heart

I scream the winds, clouds will send the message  
And it will be heard in every corner of the world

[bridge]

[chorus]

We are the ones that never will fall

We are the ones, look in the future calming down the  
pressure inside

We must realize until the end of times

End of time
