[Music: Nazgã»l Lyrics: Vampyr]

Star of Darkness, shine on me  
Let satanic shadows draw near  
The hour of eternal evil here  
And I am facing the black circle

See my blasphemous torture  
That you lit with darkness  
The witches must be gathered  
And to stand in your light

Star of evil winds, shine  
Let your shadow down on me

Hear me cry out infernal names  
Near the circle of Ninnvam

The black eclipse draws closer  
The witches are gathered  
I dream fantasies of torture  
And fornication before God

Diabolical night, dwell our souls  
Let your evil shadows draw nearer  
To possess our immortal flesh  
And to breed abominations
