Backfired  
Your plan, your plan backfired  
Backfired  
My man, your plan backfired in your face

You came into my life to test me  
Your diplomatic drag depressed me  
The glitter in your eyes undressed me  
You were polished slick  
Really thick  
Wasting time dropping lines like  
"I could get you into movies"

But we wound up at Hot Jo's for hamburgers to go

Backfired  
Your plan backfired  
Backfired  
My man, your plan backfired in your face

To steal my mind was your objective  
The way you spoke was too aggressive  
The silly jokes were not impressive  
Like "A travelling salesman met a farmer with three  
daughters", yet  
All the quips were so suggestive

Then we ran down to Hot Jo's for hamburgers to go

Backfired  
Your plan backfired  
Backfired  
My man, your plan backfired in your face

Well, come here my little dear, I've got what it takes  
Give me just what I want and I'll give you a break  
Well, don't slip on your lips cause you're talking so fast  
Buying for first, crying for last  
Well come on my little lady, don't shoot me down  
I've got strong connections all over town

Just drop to a dead stop (what?)

Backfired  
Your plan backfired  
Backfired  
My man, your plan backfired in your face

You were polished slick. Really thick  
Wasting time dropping lines  
Backfired

"A travelling salesman met a farmer with three  
daughters", yet  
Backfired

Backfired  
Your plan backfired  
Couldn't work out no  
Backfired  
My man, your plan  
Backfired in your face  
It backfired  
Backfired  
Your plan just backfired  
Oh no, it couldn't work out, backfired  
Better get a new line and try it again  
Slick performance on demand  
Backfired  
You better back up fast and head out west  
You may still collect  
Backfired  
It backfired  
Your plan backfired  
Too bad  
Backfired  
My man, your plan backfired

Well, come here my little dear, I've got what it takes  
Give me just what I want and I'll give you a break  
Well, don't slip on your lips cause you're talking so fast  
Buying for first, crying for last  
Well come on my little lady, don't shoot me down  
I've got strong connections all over town  
Just drop to a dead stop
