Passing the match test?
That's some kind of tease
'Cause everything rests on the moment
The little flame sees
Let's go!
Boom, boom in the zoom, zoom room
If you get past that brief little flash
Take down my number with your pencil moustache
Play truth or dare in the light on a stray anywhere
Don't follow the fallen already lying down there
Let's go!
Boom, boom in the zoom, zoom room
Oh yeah, uh'
Boom, boom in the zoom, zoom room
I'll be the cause you can champion
Your scarlet companion
And won't it be fun?
Keeping my head above water
I'm no farmer's daughter
No clinging vine
When we trip the light fantastic
We're feeling so rare
If you follow your features aligned by the glare
Let's go boom, boom in the zoom, zoom room
Let's go boom, boom in the zoom, zoom room
I'll be the cause you can champion
Your scarlet companion
And won't it be fun?
I'll keep my head above water
I'm no farmer's daughter
No clinging vine
Passing the match test and no one says thank you
'Cause they're gone just as fast as a breeze
Boom, boom in the zoom, zoom room
Yeah let's go boom
Boom, boom in the zoom, zoom room
Ah let's go, boom, boom in the zoom, zoom room
