Look up the right words, the ones for today.
Use them correctly and mean what i say.
Answer the questions.
Crossword confession.
Interrogation.
I'm down, can we meet?
Is it true do you cheat?
How far can i go?
How much do you know?
What's the definition?
How much did she mention?
How much does she know?
Can i find the right words to say?
The right words are so hard to say.
It's a challenger puzzle from the magazine section
across with the questions.
Do the ethics of reference.
One hundred twenty brain teasers to torment you.
One hundred thoughts.
I can't find the right words to say.
My meaning's not quite getting through.
The right words are so hard to say.
Can i find the right words for you?
Let's not hedge our bets 'cause the odds are
dependent.
Please listen instead, now the whispers are ending.
The point's misleading as points often do.
Can i find the right words for you?
