"Forgive And Forget"

In the beginning, in the days before time
The light was alive with the essence of power
And from that power were born beings
Who lived on the edge of eternity

And they spread their wings and soared through the
ancient air
And the beating of their wings made the winds
And from the winds came the seas
And from the sea came the life of the earth

Nature's cast upon the sea
The winds of past, of promise be
Waters deep uncover me
A scheme of sleep as lovers three

If you'll forgive me, my ferocity
I won't forget your sweetness
Pull down the night, lay it before me
Gratify my head with curses

Night recalls tranquility
A curtain falls and sets it free
Darkness calls eternity
Down silent halls, the shadows flee

If you'll forgive me, my ferocity
I won't forget your sweetness
Pull down the night, lay it before me
Satisfy my head with curses

Forgive and forget
Forgive and forget
Forgive and forget

Fates are cast upon the sea
The winds of past, of promise be
Waters deep uncover me
A scheme of sleep as lovers three

Forgive and forget
Forgive and forget
