Time to close your eyes and fly away.
No one can take your world away.
And leave you with a brand new stairway.
You're alright.
You've got time up your sleeve.
You've got time.
You've got time.

In your dreams you were dancing.
I never dance.
I make believe you're with me and I don't look back.

You can't fly if you don't have the hardware.
Fade away like a word on a stone.

You won't fly, you won't fly, you won't fall.
Just hanging like a heart..
Heart on a wall. you won't fly if you don't got the
hardware.
You can try to get off the wall.
Just hanging like a heart on a wall.
Heart on a wall.
You just hang like a heart on a wall.
You just hang like a heart on a wall.
Hang like a heart.
Heart on a wall.
