I wanna dance with Harry Dean
Drive through Texas in a black limousine
I want a piece of heaven before I die

I wanna pair of pink high heels
Catch the lights up on the ferris wheel
What I really want I just can't buy

Here comes the twenty-first century
It's gonna be much better for a girl like me
'Cuz I want everything I can
But most of all I want that man, I love that man

I wanna move like "What's his name?"
I'll keep the money, you can have the fame
Everything that's yours will soon be mine

Yeah, I wanna be the queen of the USA
You could send me roses every other day
But what I really want I just can't buy

Here comes the twenty first century
It's gonna be much better for a girl like me
'Cuz I want everything I can
Most of all I want that man, I want that man

I wanna be kissed from head to toe
By that man in the very back row
But he won't even look me in the eye

Ah, I want his love to rain right down on me
I want him to be king of all my dreams
What I really want I just can't hide

Here comes the twenty first century
It's gonna be much better for a girl like me
'Cuz I want everything I can
But most of all I want that man, I want that man

I want that man, I want that man
I want that man, I want that man
I want that man, I want that man

I want that man, I want that man
I want that man, I want that man
