No explanation
No words describe
Serving sentence in your head
You murder time

Some waiting station
One endless night
Take the empty trains to nowhere
In your idle mind

And sometimes I feel like the last one on the planet
(Only one, you're the only one)
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Don't get so near to me
Don't disappear on me
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Here comes the morning
Venetian blind
I'll do the haunting
I'm killing time

It's dark on Broadway
It's kind of like
Walking down the lonely streets
In your idle mind

And sometimes I feel like the last one on the planet
(Only one, you're the only one)
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Don't get so near to me
Don't disappear on me
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Don't get so near to me
Don't disappear on me

Sometimes I feel like the last one in the world
(Only one, you're the only one)

Don't get so near to me
Don't disappear on me
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Don't get so near to me
Don't disappear on me
Sometimes I feel like the last one in the world
(Only one, you're the only one)

Sometimes I feel like the last one in the world
(Only one, you're the only one)
I'm the only one, I'm the last one in the world
(Only one, you're the only one)

I'm the only one, I'm the last one in the world
(Only one, you're the only one)
(Only one, you're the only one)
(Only one, you're the only one)
(Only one, you're the only one)
