"Mood Ring"

Visit "[Mood Ring](#)" on MotoLyrics.com

Where does it start?
Where does it end?
Where's the division in ocean and sand?

Days are quiet, nights are long
Everything is August, everything is calm
We're lying here in the heat in suspended
Animation with a slo-mo beat

Taken together, taken apart
I feel your excitement, take it to heart
Changes of season, changes of reason
But changes in a mood ring
Come straight from the heart

Where does it stand?
Where does it bend?
Where does my love light begin and yours end?

Days are quiet, nights are long
Everything is August, everything is calm
We're lying here in the groove in the heat equation

We don't wanna move
Light as a feather
Light in the dark
I need to feel the beat of your heart

Changes of season, changes of reason
But changes in a mood ring
Come straight from the heart
