1 2 3 4.

Little boy up in (?)...

That's left behind to sin.

Moving like a camera I can watch you on my screen.

Fall into a shadow world inside of me.

Hidden like a treasure.

Secrets in my scene.

You can follow me.

Oh, you can follow me.

You can follow me.

Ah, you can follow me.

Scream inside.

Whisper.

Picture in a dream.

You can talk to me and we can talk forever.

I could take you to the doorway and I can give you the
way, the key.

No one here can see you, no one here but me.

Fall into our shadow, there's another world in me.

And you're invited.

And you're invited.

In the little world I make with all the little things I take...

A million ways to pass the time, in this little world of
mine.

You can follow me.

Oh, you can follow me.

You can follow me.

Oh, you can follow you can follow you can follow follow
follow follow follow.

You can follow me.

Oh, you can follow me.

Secrets in this world.

Picture in a dream.

No one here can see you, no one here but me.

And you can follow me.
Oh, you can follow me.
You can follow me.
Oh, you can follow me.
You can follow me.
Oh, you can follow me.
You can follow me.
Oh, you can follow.

In the little world I make with all the little things I take...
A million ways to pass the time, in this little world of
mine.

You can follow me, follow me.
You can follow me.
Oh, you can follow.

You can follow me. follow me.
You can follow me. follow me.
You can follow me.
You can follow me.
You can follow me.
You can follow me.

You can follow me.
You can follow me.
Where are we going?
You can follow me.
But where are we going?
You can follow me.
Where do you wanna go?
You can follow me.
Ok.
