You say you wanna take me down to Puerto Rico  
Crowded Puerto Rico  
Humid Puerto Rico  
You say you wanna take me up to the mountains  
The boring mountains  
You say you wanna take out to Las Vegas  
Viva viva Las Vegas  
I heard it  
I did it  
I got the bill  
I lived it  
I paid it  
Paying still  
Compliments and promises can't fool me twice  
Spreading lies like that around isn't very nice  
You say I'm so fascinating like no one else you know  
No one else you know?  
Your wife should know  
You say you wanna put me on some TV show  
The Johnny Carson show?

Come on  
Let's go  
You say you wanna buy me leather coats and cars  
Make me a star  
Take a trip to Mars!  
I did it  
I got it  
I got the jewel  
I made it  
I paid it  
And I'm no fool  
Compliments and promises can't fool me twice  
You're such a low-life schemer  
Beat it creep dematerialize  
Beat it creep dematerialize
