When you tell me
That I'm a double timer
Well to me
This doesn't add up

You can call me
Miscalculation
But I can't give up
I love you through and through

Well maybe
I coulda been better
Yeah maybe
I've been kind of bad

(chorus):

But I know, oh yes I know
You'll be two times blue if I go
I know, oh yes I know
You'll be two times blue if I go

So can you tell me
How do you measure
How the bittersweet
Takes over your mouth

And when the taste
Is too hard to swallow
Well that's what
The sugar's all about

So how can we get
Back to basics
Before I go down
For the count

(chorus):

Because I know, oh yes I know
You'll be two times blue if I go

I know, oh yes I know
You'll be two times blue if I go

(mini rap):

You break it you bought it
You kiss it you keep it
First you try it, then you need it

You break it you bought it
You kiss it you keep it
First you try it, then you need it

(chorus):

I know, oh yes I know
You'll be two times blue if I go
I know, oh yes I know
You'll be two times blue if I go

(repeat once)

Two times blue
