She's an underground girl
In a underground word
She never comes around
She stays underground
Ask her what's her trip
She bites her lip
She's the coolest girl around
The girl from underground
She's the girl that's always right
She's the one that gets uptight
Ask her how she's been
She'll give you some skin
Hey now everybody from all over town
Hey now everybody gonna go underground
For everybody wants to be inside
Well she's gonna take everybody for a ride
Your the coolest girl around
She's the girl from underground
For I don't brag
But I'm no dag
As she's from

She always playing dumb
Well hey now everybody don't fall down
Well hey now everybody gotta go underground
Well hey now everybody don't want to be inside
Well hey she's gonna take everybody for a ride
Ahhhh
She's the coolest girl around
She's the girl from underground
You can beat her with a whip
She'll just think it's hip
You can see her at night
Never in the light Well hey now everybody don't fall
down
Well hey now everybody gotta go underground
Well hey now everybody don't want to be inside
Well hey she's gonna take everybody for a ride
(Were are we going?)
(I don't know)
