I always said you could make it  
I know what I said and I meant it  
I always liked the way you played guitar  
I always knew that someday you'd go far  
An' if you do, will anything happen?  
Will it come true, will anything happen?  
Will I see you again?  
You said you'd be through here again  
Please don't forget I'm here waiting  
You always said that you would never change  
Like the people that you've met and the places that  
you've been  
An' if you do, will anything happen?

Will it come true, will anything happen?  
Will I see you again?

I always said you could make it  
Just don't forget that I said it  
Cause I always liked the way you played guitar  
And I always knew that someday you'd go far  
An' if you do, will anything happen?  
Will it come true, will anything happen?  
Will I see you again?  
Will I see you again?  
Will I see you again?

An' if I do, will anything happen?
