People people see the rain fall down  
You wash your .. slavery ,  
Free yourself ,work  
It's a political fuck  
None of the .. just taking it back  
We are taking it back  
It's a political fuck  
Not in the .. just taking it back  
We are taking it back  
People people  
People people  
People people  
See the train on track you save yourself from danger  
You are never going back I say let go let go  
You create the .. every stock  
Is a political fuck not in the , just taking it back  
Taking it back it's a political fuck  
Is not in the .. we are just taking it back  
We are taking it back  
People people  
People people  
People people  
We are taking it back  
We are taking it back  
We are taking it back  
We are taking it back  
We are taking it back  
Is a political fuck
