It never came like they said it would
I missed the Odyssey
Nothing happened like they said it should
It's come and gone you see

I feel cheated coz I read the books
I waited all my life
Supposed to come and end it all
Supposed to end the strife

Now I am sad and it's all bad
I'll never live to see
I'll be dead before the end
Of this humanity

Armageddon what went wrong?
Why'd you make me wait so long?
Supposed to come along and set the spirits free

Armageddon what went wrong?
Why'd you take so damn long?
Supposed to clean the shit and rewrite history
