"Nausea"

Been hugging the bowl now baby
And I got the sweats
My Nose is running badly
And I ain't done yet

I got an ache in my belly baby
And it won't go away
I feel it building up inside me
I think it's here to stay

I can't take any more now
Coz I know the score
If this goes on for much longer
I'll end up on the floor

Now I can't take no more
I'm on my back down on this floor
Something's going on inside my head
If I keep this up I'll end up dead
