Want to take you to the edge - but you're freaking
Want to take you and jump of the ledge
Want to show you how it could be - but you're freaking
Set your body and soul and mind free

Yeah

Do you want to be with me?
Can you stand to take a chance on something new?
Do you want to be set free?
Coz I'm coming after you

I need to get you to admit - but you're running
You need me more than a little bit
I need you by my side - so stop running
We'll cross through to the other side

Yeah

Take you to the edge
Jump off the ledge
Show you how it could be
Set your mind free
