Today is the day of its return  
Who lives in this world will burn  
From the abyss you can see the smoke  
The smoke of evil that comes in your homes

I see the ocean that runs with the wind  
Theres a hole in the water, I cant believe  
I see something in the hole, its horrible  
Now I understand, the beast wants to rule

This is the ancient beast  
It wants to command over its earth  
This is the ancient beast  
Theres no survivor, dont fight with the beast

Help me god, I will give my soul for heaven  
I havent fear, I will fight forever  
I will close the door of the abyss of evil  
I will close the door of the blood thirsty demons...  
...in Hell!
