This is Walpurgis night  
They dance in circle  
All around the fire  
But they're not alone

There are the demons  
They wanna call the devil  
With sex and blood  
They do all they want

Witches are here, demons are here  
Ivol is here, the ritual begins!  
In Walpurgis night black witches arrive  
I want to survive, the ritual begins!

I see the devil  
Into the fire  
I feel the evil  
Over the circle

I wanna run away  
I'm not one of them  
Devil wants my soul  
But there's no way, no more!
