I don't know where is the knowledge  
I want to know where's my conscience  
So I look at my heart  
And I find all the answers

It's in my heart  
It's in my blood  
It's in my soul

I want to know the mean of life  
I want to know where's the light  
So I look at my soul

And I understand what I am

It's in my heart  
It's in my blood  
It's in my soul... occultum lapidem

I'm not blind and I can see  
The great light of my will  
I look for peace for my mind  
I look for pleasures, that I've inside
