You say I'm evil you say I suck
My hair's too long I don't give a fuck
I'm doing nothing out of control
My music's wrong I don't care at all
You say I'm dirty I smell like shit
All dressed in black and my clothes don't fit
I'm a sinner excuse me m'am
You take your moral I don't give a damn

Metal's getting hyper deadly as a viper
Rise from armageddon
Faster than a freight train stronger than a steel chain
Screaming voices roar

In the name of metal
Raise your fist to the heaven above
In the name of metal
Raise your fist and shout
In the name of metal
Raise your fist to the music we love
In the name of metal

You think i'm ugly looks like a witch
I'll kick your ass like a pussy, bitch!
You call me loser I raise my glass
Let's make a toast you can kiss my ass

Metal's getting hyper deadly as a viper
Rise from armageddon
Faster than a freight train stronger than a steel chain
Screaming voices roar

In the name of metal
Raise your fist to the heaven above
In the name of metal
Raise your fist and shout
In the name of metal
Raise your fist to the music we love
In the name of metal
