We might feed you lies  
But it's all OK  
Keeps you all from going places  
What's behind the lies?  
You don't wanna know  
Leaves you out there in the cold

What is out there?  
Let me know  
Help me out here  
Let me go

You might be what someone  
Needs to fear  
You might be what someone  
Else holds dear

Doesn't mean that much to me  
I'm the master of my dreams

You might need commands  
You'll feel right at home  
In this world where nothing changes
