## "Tabula Rasa"

I reach so deep inside the shambles that is me  
Lie to myself and sometimes tell me I am free to  
Connect the dots to make a sine, to make it mine  
Connect the dots my friend  
Step right out of line

Why chase a dream that's never there?  
Why chase a dream that's everywhere?

Tabula Rasa  
You gotta let me know  
Tabula Rasa  
Tell me what and who we're fightin'  
Tabula Rasa  
You gotta let me know  
Tabula Rasa  
What I am and who I was before

With every reason, there's two more to withhold  
To prove beyond a doubt this lonely heart is cold  
Extensive mining of the mind should take it's toll  
Corrective surgery to fingerprint your soul

Who wants a second chance to live  
If there's a second chance to give?
