Dog will hunt I'm the front end loader  
Travoltin' over  
So try my slam on for size  
Drive stick with that kung-fu grip  
Let the banana split and  
Watch it go right to your thighs  
Cop a feel Copperfield style  
Abracadabra that bra  
Do you think I can pull it off?  
Wanna bang around?  
Just jot me down on your to-do list  
Under "put out like a fire" 'cause

I got somethin' and it goes thumpin' like this  
All you need is  
My uhn tiss uhn tiss uhn tiss  
I got somethin' and it goes thumpin' like this  
All you need is  
My uhn tiss uhn tiss uhn tiss

Uhn tiss uhn tiss uhn tiss baby

Edible strange how do I get  
In your pants when  
You're tick tockin' them  
Serious Levi's  
So tight can't be classified  
That's why I'm here to fill that opening  
Make a seasoned pass  
To mount that ass and  
Bob hope that i might one night stand a chance  
Let's go feng shui the fuck around My digs like a  
superball  
Bring that sunny side up and

I got somethin' and it goes thumpin' like this  
All you need is  
My uhn tiss uhn tiss uhn tiss  
I got somethin' and it goes thumpin' like this  
All you need is

My uhn tiss uhn tiss uhn tiss
