[MUSIC: POPE...LYRICS: CAPTOR/NECROSADIST]

At dusk she burns with the end of the sun  
Burn:witch Burn:  
Enter the night under the full moonlight

Torches burn the witch hunt begins  
Burn:bitch Burn:  
Through the woods and into the fog

Open the gates to the cemetery  
Burn:cunt Burn:  
Etched is your name unholy grave

To burn is your fate  
Death at the stake  
Under twilight shadows  
The judgment begins  
Guilty as sin  
Trial in flames

To burn is your fate  
Death at the stake  
Under twilight darkness  
The judgment begins  
Guilty as sin  
Entranced by flames

At dusk she burns with the end of the sun  
Burn:witch Burn:  
Enter the night under the full moonlight

Torches burn the witch hunt begins  
Burn:bitch Burn:  
Through the woods and into the fog

Close the gates to the cemetery  
Burn:cunt Burn:  
Etched is your name unholy grave
