I will climb the highest mountain
And spend my winter in the storm
Turn it back, get ready and action
I told you I would keep you warm

And I, I'll do it, I'll do it for you
I'll do it, I'll do it for you
Believe it, I'll prove it to you
You know that I'mma do it
And then I'll be yours again

I heard you call me, I came running
'Cause wherever you go
I'll be standing right by your side
When I gave it to you, how you want it
Baby, just so you know
You can count on me at anytime

I'll be your blanket when the weather's getting cold
I'll be your shadow so you'll never be alone
I'll be that shoulder you can lean on
Wanna be the body that you breath on

I will climb the highest mountain
And spend my winter in the storm
Turn it back, get ready and action
I told you I would keep you warm

And I, I'll do it, I'll do it for you
I'll do it, I'll do it for you
Believe it, I'll prove it to you
You know that I'mma do it
And then I'll be yours again

As long as I got you, I'm looking out for you
All you gotta do is let me know and I'll be right there
'Cause honestly, I ain't never met nobody like you

What's mine is yours, in this life that we share

I'll be your blanket when the weather's getting cold
I'll be your shadow so you'll never be alone

I'll be that shoulder you can lean on
Wanna be the body that you breath on

I will climb the highest mountain
And spend my winter in the storm
Turn it back, get ready and action
I told you I would keep you warm

And I, I'll do it, I'll do it for you
I'll do it, I'll do it for you
Believe it, I'll prove it to you
You know that I'mma do it
And then I'll be yours again

I'm gonna prove it, baby
I'm watching over your mouth
Anywhere, anytime
Just to see you smile

I'll be your hero
Be your animal
I'm gonna show you
What I'm made of

I will climb the highest mountain
And spend my winter in the storm
Turn it back, get ready and action
I told you I would keep you warm

And I, I'll do it, I'll do it for you
I'll do it, I'll do it for you
Believe it, I'll prove it to you
You know that I'mma do it
And then I'll be yours again

Yeah, yeah, I gotta do it, baby
Yeah, yeah, yeah, I'm gonna do it for you
