I was the one  
I was the one who tried to pick you up  
But the other one was waiting  
I could not afford to be stood up  
Right as you call  
Right as you call "I have to get my stuff"  
Don't defend the decision  
Or pretend it didn't happen to us

Just before I could go  
She would run run run run run run run  
She was the one  
She was the one who tried to break us  
One who tried to take us apart  
She was the one  
Before the fun had even begun

And I hardly think about her  
Hardly think about her  
Hardly think about her  
All the time time time  
Hardly think about her  
Hardly think about her  
All the time time time time time time

But forgiving is fun  
Over the nights I knew that she was the one  
I get my day book open just to angle for a coffee with  
someone  
But she'll never fall (in love)  
She'll never fall in love with one of us  
She's the time to keep us thinking  
All along that we've got things worked up

Just before all I saw  
I could run run run run run run run

She was the one  
She was the one who tried to break us  
One that tried to take us apart  
She was the one  
Before the fun had even begun

And I hardly think about her  
Hardly think about her  
Hardly think about her  
All the time time time  
Hardly think about her  
Hardly think about her  
All the time time time time time time time

You and I both know that's real enough to let it go  
But still  
We've got things all thinking all the time  
Enough to talk about  
And you know why things go wrong

She was the one  
She was the one who tried to break us  
One who tried to take us apart  
Yeah, she was the one  
Before the fun had even begun  
And I hardly think about her  
Hardly think about her  
Hardly think about her  
All the time time time  
Hardly think about her  
Hardly think about her  
Hardly think about her  
All the time time time time time time time  
I think that she was the one  
I think that she was the one
