## "Smoke Screen"

The button's been pushed  
Five hours left to live  
Chaos all around  
As you prepare...to die

Look to the sky  
You long to see light  
Sit and laugh  
Watch the earth

Regress  
Destruction awaits  
Futile mass, divine aphasia morality,  
No longer exists

Struggling, striving existence!

Burning flame  
Scream in pain  
Intense heat  
Smoke screen!

Nothing is left  
Nothing but death  
No one survives  
The smoke screen!

Burning flame  
Scream in pain  
Know one survives  
The smoke screen!

Incarcerate  
Incandescent light  
Feel the fire start to burn  
As you prepare to die!

Choke!
