Darkness, buried beneath it all  
Gripping solitude  
Empty souls, with tears of blood  
Violence consumes

Scarified, randomly  
Hidden behind the lies  
Reclusive, suffering  
Just to rectify

Tortured through lies!  
Tortured through lies!

Mortified, the bleeding souls  
Flourish from the ground

Begging for forgiveness  
In a god...who's never found!

Darkness, buried beneath it all  
Gripping solitude  
Empty souls, with tears of blood  
Violence consumes

Scarified, randomly  
Hidden behind the lies  
Reclusive, suffering  
Just to rectify

Tortured through lies!  
Tortured through lies!
