I am looking for drugs in a midwest town  
I'm searching for something I have not found  
Just point me the furthest direction south from you  
I will descend and I will not grow  
True friends stab in the front you know  
I've realized my loss and won't let it show to you  
We've grown up too fast on a one way track  
To minimum wage, with our hearts in a cage  
Is this what you thought we would be at 23?

And with the strength to carry on  
I'll keep pushing through these thoughts  
Without a father I've been taught  
To lose your wings and not succeed  
But that won't keep me here at bay  
I'll watch you all fade away

If there was one truth that I had not found

I'd wish it to be that my mind would be free  
from hating this town as it slowly drowns our lives  
So pack up your things and head out that door  
You always thought that we'd strive for more  
And live out our dreams to the fullest degree oh yea  
So when the darkness drowns my light, I'll cast my sail  
and hope to  
prevail  
Without a father I've been taught  
To never talk or share these thoughts  
But that won't keep me here at bay,  
I'll watch you all fade away

Fade Away (We've grown up too fast on a one way  
track)

Fade Away (To minimum wage with our hearts in a  
cage)

Fade Away (You always thought that we'd strive for so  
much more)
