In midnight
In the midnight sky I call for you
Call for you
In daylight
In daylight I search clouds for you
Clouds for you

CHORUS

Then the sky falls down into this river in me
And the water will rise and finally find me with you
My Forever You

I thought I
I thought I wanted a pretty view
Just a pretty view

In your eyes
In your eyes I found words I thought I knew
I only thought i knew

REPEAT CHORUS

It's a long trip to take
What a raindrop makes
The moon in waning
The sky keeps raining
Heaven to the sea
From me to you
From me to you
My Forever You

REPEAT CHORUS

Boundless sky to the ocean
Full of emotion for you
My Forever You
