Birds, they're walking all around
Birds, they're making little sounds
Have you seen any birds today
I will blow those birds away
Birds, birds, birds, birds

Worms, they're sneaking underground
Worms, they're making tiny sounds
Dirt, is what they eat

Rocks and stones make a worm complete
Worms, worms, worms, worms

Birds, they're looking pretty cute
Birds, I see 'em, I shoot
Have you seen any birds today
I will blow those birds away
Birds, birds, birds, birds
