Chorus:

Hang my hat on a crescent moon  
Way up there in a cosmic saloon  
And watch the world go by through  
the eyes of a bird up in the sky  
On a horse named shooting star  
We'll be riding high out wherever we are  
Up where cowboys go at the end of the rodeo

Over trees and the power lines  
Over mountains into the sky

I look down from a starlight night  
Watchin' the world go bye

Repeat Chorus

I don't mind going all alone  
For the milky way is my home  
Earth is not the place for me  
I prefer less gravity  
Yeah, Yeah

Repeat Chorus

Up where cowboys go at the end of the rodeo
