"Long Gone Goodbye"

Well you tell me I'm way out of touch
So I tell you that it don't me much to me
And nothing comes for free
So it goes all day
And into the night
Don't you know we're just bound to fuss and fight you
see
You don't listen to me

I've got ears
I've got eyes
I've got all my senses to keep me wise
Hold your tears tell no lies
I'll be long gone by the time you said goodbye
You know me
I get way out of line
I tell you this is just wastin my time
But don't go
Cause we've got nothing to show
So it goes all day almost every night
The shadows grow darker and in the light of the clear
day
I wish you'd hear me say
