The government's trying to wipe us out  
While our own race just sells us out  
I'm feeling pissed off and kinda shitty  
Think I'll have some fun and bomb your city  
I'll bomb your cities, destroy your towns  
Wipe out the scum, kill all the browns  
Hang the politicians and waste the police

Until I'm feeling better the murder will not cease!

I've taken too much shit from you (you're gonna die!)  
We're the proud the hateful (you're gonna die!)  
The time is now, no more wait (you're gonna die!)  
Don't kiss our ass, it's too late (YOU'RE GONNA DIE!)
