You never have to lie
Don't build a wall and hide behind it
Let's see what we can find
Let me show you what i like
Don't waste another night
Let's build a dream and live inside it
Don't be afraid to fly
Baby, show me what you like
All i want baby
Is to have enough
All i need angel
Is someone to trust
All i fear sugar
Is to care too much
All i need baby
Is to know i'm loved
I want us to be right
To have out hearts both come alive here
I pray our dreams survive
Baby, give your love tonight
