"Let's Do It Together"

Visit "[Let's Do It Together](#)" on MotoLyrics.com

life can be hard
light before darkness
and things you thought were certain
come undone

friendships turn cold
lovers grow old
and people make excuses
for what's gone bad

rivers run dry
tears that won't cry
and pleasures you could count on
turned to dust

governments lie
politicians tire me
and nothing on my television's
getting any better

we'll find another way
you don't have to be alone

let's do it together
let's do it together
let's do it together

this time won't be the same
i'll be with you all along

let's do it together
let's do it together
let's do it together

you are, you are the one
