There he is, got me feeling like this, like this, like that

Now listen here, before I disappear
If apocalypse is near, never fear
Lapu-Lapu with the spear
Girl I got you with the beer, so
Cheers to my folks, oh my chariot is here
Gotta go, gotta go
Gotta whole lot of poems in my scrotum Imma bust I'll
Turn em into gold like Manny with the gloves, or
Midas with the touch, I told them not to fuss
Got my mind on my money but the money's not enough
What-what-what-what with a piled up debt not arrivin'
yet but I bet
you'll see that soon
Bullshit we do for the change and a buck or two, it's
nothin' new
But a change gon' come and it ain't no fun
No butter, no guns, nobody to run to with a "Check,
one, two"
I hope this god damned check come though, come on

New people comin' through, you better move when we
come
Watch 'cause here we come
New people
New people comin' through, you better move when we
come
Watch 'cause here we come
New people
(Oooh)
We be that new, new people that
(Oooh)
We be that new, new people that (that, that, that)
(Oooh)
We be that new, new people that
(Oooh)
New, new people that, new, new people

Now listen here, before I disappear in the air
It's truly been a pleasure doing music for my peers

Let me make the signal clear
We livin' on a prayer
So take my hand and we'll make it, I swear
I swear that-eh it's getting hotter outside
'Cause it's all about time like Slaughterhouse Five
'Round the globe, Mr. International
Capture souls at his shows
And it shows, they takin' off their clothes (ha ha!)
Everybody sayin' "Yes We Can" in a time that you can't
do much
I guess that's just what it is when a bank and a market
bite the dust
Plus can't fall back on a man with a suit, with a plan all
by himself
Gotta have health, gotta act stealth
And a skill called "learn how to tighten your belt" (ha!)

New people comin' through, you better move when we
come
Watch 'cause here we come
New people
New people comin' through, you better move when we
come
Watch 'cause here we come
New people
(Oooh)
We be that new, new people that
(Oooh)
We be that new, new people that (that, that, that)
(Oooh)
We be that new, new people that
(Oooh)
New, new people that, new, new people
(Oooh)
(Oooh)
