(Verse)

And I'll do what it takes to restore your trust
No matter what it takes; I'll put my life at stake
Please forgive me... please forgive me
Unfortunately I felt lonely

You're far away from me, it's hurting me

I need you here, here with me, accept my apology

(Chorus) You're my number one, you're my number one

Without you I can't go on, without you I can't go on

You're my number one

Without you I can't

Go on... (4 times)

(Outro)

And I'll do what it takes to restore your trust

No matter what it takes put my life at stake
