(Here we are)  
(Here we are)  
(Here we are)

Now from the longest to the shortest 24 in a year,  
From the verses to the chorus you've been longing to  
hear  
The talk, story transmitted through verses, we  
persevered  
We the presently last and future first from the spear  
To the slingshot, we rock upon the solid rock of granite  
We stand over the plan to hold the weapon with  
the fist and heal it with an open hand  
Feelin' focused on the promise of a liberated land  
and I'm just a simple man  
Gettin' caught crossin' the fire,  
More often than not the fire crosses us,  
And the cross is on fire  
We martyrs it's not enough it's been time to dig and  
find the diamonds in the rough  
And then refine them into weapons to cut up the belly  
open 'til we all fall out  
'Cause the end of what it was is what it is right now  
It's a great leap forward kinda different from Mao  
Still drop it on the one like elevators to the ground  
Now it's the turning of the page to the second chapter  
A tragedy and comedy so cue the blood and the  
laughter  
To survivors of economic and natural disasters  
livin' for the right here and not the here after  
A handful of tracks each a snapshot to capture the  
trials and tribulations  
And smiles since you've been waiting a while  
We graduated in style, congratulations people of the  
word gather  
Thank you all for your patience
