No matter where you are a struggles near by
And there ain't enough time for loves to say hi
Some nights require the spark
A fire to remind us what we really look like in the dark

So let it go, let it go, let it go,
let it go, and let it go,
let it go, just let it go, let it go,
let it go, let it go, and
let it go, and let it go, let it go,
let it go, just let it go, just let it go

Ms. Mahogany, I hear you calling me
You had a dream last night that you were rockin' me
And now you talkin' of fulfilling the prophecy
I got you open like a true democracy
My policy has always been ladies first
It begins where the skin starts and ends when it hurts
You the first one to find me in the cold like that
No disguise when the prize make your eyes roll back
I suppose, makes us want to fight that harder
I know, sometimes the fire need water
So, call up your partners and tell 'em not to bother
'Cause tonight we getting far from the cops and the
robbers
Doin' like, moms and pops when they made us
Simulating scenes by adult entertainers
Burnin' two meals worth of calories, later
We just laid there and laughed
It pays to relax

No matter where you are a struggles near by
And there ain't enough time for loves to say hi
Some nights require the spark
A fire to remind us what we really look like in the dark

So let it go, let it go, let it go,
let it go, and let it go,
let it go, just let it go, let it go,
let it go, let it go, and
let it go, and let it go, let it go,

let it go, just let it go, just let it go

I see how you work
Lately you've been grim and determined to win
That's how they want us to get
Now we come to expect, nothing less than the best
Just pause and reflect, nothing honest as sweat
Now we linger in the heat, simmer in the sheets
Put the tinkle in your feet, voodoo on repeat
How does it feel to make your cipher complete
Daily you professional, at night she's a freak
Now she's just chillin', I'm just chillin'
Let's inspire the neighbors to make children
But all the travel is making the love limited
Feeling like a prisoner with conjugal visitin'
Every time I break you off feelin' religious
Saying "Oh my God, oh my God"
Conversations 'til one, have relations 'til four in the
morn
You've been warned I'm a warrior y'all

No matter where you are a struggles near by
And there ain't enough time for loves to say hi
Some nights require the spark
A fire to remind us what we really look like in the dark

So let it go, let it go, let it go,
let it go, and let it go,
let it go, just let it go, let it go,
let it go, let it go, and let it go,
and let it go, let it go, let it go,
just let it go, just let it go
