All is clear now, in the night.  
Wrapped in a blanket of feelings I take flight  
If something is gonna happen it better be soon  
I can't go on nothing, I play the fool

How can this be  
The way that it's meant to be?  
Can we mend the broken strings?

So what can I say?  
Are you leaving today?  
It's too easy to let it slip away.  
All is clear now and I can see  
There's a distance growing between you and me  
Are you listening, are you listening tonight?  
I believe you, yes I believe you tonight.

You keep me so far away  
Believe me that I'm here to stay.  
There's no one that I know who can dance with the  
angels  
And shame every halo  
We've got to find a way
