Land of freedom (x2)

I see my life rolling away like a dice
Blowing down like a tree
Maybe one day I'll be free
Every night I see the stars and I open my arms
I believe there's a land, so come to me
Take my hand, stay close to me
Can you really set me free
As the seagull on the sea?
Like a sun will along the shore
And I've never been before
So I wonder through this land
May my freedom never grant?
Will this feeling ever be?
May you really set me free?

Save me tonight

Save my soul from the spite
Let me pray for my land, follow me, be my friend
We'll begin a wonderful life
Far from worries and from lies
I believe in this land, so stay with me
Stay forever near to me
Can you really set me free
As the seagull on the sea?
Like a sun will along the shore
And I've never been before
So I wonder through this land
May my freedom never grant?
Will this feeling ever be?
May you really set me free?
