Fell my heart away
Its time I call your name
oh darling I can't help it
Im walking on the moon

Never ended story
woman meet a man
and loosing concentration
what's happening to me?

Hey! you pull the wires... of my love
in every way
Hey! my desire is your love
right away
youuuu pull the wires
the're moving me babe
ooooh love's desire... loving youu oh oh
pull the wires
I will surrender right away
you've got to me ooooo
I'm loving your move babe

Why do I remember?
memories bring me down
high and low emotions
are moving me around

Never ended story
A woman meet a man
oh darling I can help it
together you and I

Hey! you pull the wires... of my love
in every way
Hey! my desire is your love
right away
youuuu pull the wires
they're moving me babe
ooooh love's desire...
you're turning me all around

Ohhhh I desire
you're even more than I can say
you're all for me

when I'm down and all alone
you're my soul and inspiration
are you on my side out in the sea Oh!
you guide me every day
and the love will lead the way
c'mon! come on! just stay with me ohh ohh

youuuu pull the wires you're moving me babe
ooooh love's desire... loving you ohhh
pull the wires
I will surrender right away
you've got to me
you've got to me Oooooh!
