Good luck and dont dare give up
give it a little bit of vitriol!
and if its really gonna cut you up
give it a little bit of vitriol!

and if you cant shape up
nobody wants you
fuck the whole world
and what everybody's sayin' hey
good luck and dont dare give up
give it a little bit of vitriol!
HEY

Good luck and dont dare give up
give it a little bit of vitriol!
hey
and if its really gonna cut you up
give it a little bit of vitriol!
hey

and if you cant shape up
nobody wants you
fuck the whole world
and what everybody's sayin' hey
good luck and dont dare give up
give it a little bit of vitriol!
HEY

dont let your self down

kept your chin up
careful
keep your chin up
every now and then everybody feels stupid

kept your chin up
careful
keep your chin up
you can put yourself to use so keep it moving

Good luck and dont dare give up

give it a little bit of vitriol!
hey
and if its really gonna cut you up
give it a little bit of vitriol!
hey

and if you cant shape up
nobody wants you
fuck the whole world
and what everybody's sayin' hey
good luck and dont dare give up
give it a little bit of vitriol!
HEY

dont let your self down

kept your chin up
careful
keep your chin up
every now and then everybody feels stupid

kept your chin up
careful
keep your chin up
you can put yourself to use so keep it moving

kept your chin up
careful
keep your chin up
every now and then everybody feels stupid

kept your chin up
careful
keep your chin up
you can put yourself to use so keep it moving

keep it moving
keep it moving
keep it moving
