Lathered up and weepy, the informant told me,  
And none too sympathetic that our run would turn.  
And standing sent to burn in decisions, hard print and  
whatever.  
Here they come to register,  
You might have to get in line and take a number.  
Yeah, we aim to please!  
Missing the mark, fall over ourselves to bother.  
Put out and steely, annoyed and chaining daises,  
Another quick sentence in passing another judge and  
jury.  
Its been our misfortune investing,  
Hasn't return been steady,  
Complaints have been far and few between.  
The idiotic, close and many.  
Please hold the line or try another number.  
Yeah, we may seem cold  
But it's just because weve been a little snowed under.  
You can't be serious!  
Oh lord, and if are please don't ask the same of us.
