Here it comes again, in accurate cycles
Sticking all it's pins in my skin
Like a hurricane, it spits and it's spiteful
Throws us back to where we begin

And here it comes again
The chip on my shoulder
Always gives me something to prove
And with encouragement, i'll only get bolder
Try to keep things locked in a groove

Oh but then I look at you, as if you'd know what to do

Here it comes again, taste the excitement
Hear it bouncing off of the walls
And i'm as passenger, with you as my pilot
I couldn't feel much safer at all

And here it comes again, so concentrate hard now
Never let me out of your sight
Im losing altitude, i'm falling apart now
This could be my longest night

Oh but then I look at you, as if you'd know what to do
I can feel us start to go, sucked in by the undertow.

Blood tubes inside the brain, you pull that face again
You said you can't help it, you really can
But here it comes again

Blood tubes inside the brain, endorphins numb the pain
You know I can't help it, I really can't
But here it comes again

And here it comes again, in accurate cycles
Sticking all it's pins in my skin
Like a hurricane, I spit on my rivals
Throws us back to where we begin

Oh but then I look at you, as if you'd know what to do
I can feel us start to go sucked in by the undertow

Blood tubes inside the brain, you pull that face again
You said you can't help it, you really can
But here it comes again

Blood tubes inside the brain, endorphins numb the pain
You know I can't help it, I really can't
But here it comes again
